### **Applied Biology Expands Clinical Leadership Team with Key Hire**

FLAVIO A. CADEGIANI, MD, MSC, PHD JOINS APPLIED BIOLOGY AS CLINICAL DIRECTOR

Irvine, CA, December 18, 2020 — Applied Biology announced today the addition of renowned endocrinologist Flavio A. Cadeгани, MD, MSc, PhD in the key position of Clinical Director.

Dr. Cadeгани joins Applied Biology during a rapid expansion in its clinical trials programs. Applied Biology is conducting over a dozen trials in the US, Europe, Asia and South America. Dr. Cadeгани expands the International team with additional expertise in endocrinology as well as presence in Brazil and South America.

### **ABOUT APPLIED BIOLOGY**

Founded in 2002, Applied Biology, Inc. ([www.appliedbiology.com](http://www.appliedbiology.com)), headquartered in Irvine, California, is a biotechnology company specializing in hair and skin science. Applied Biology develops breakthrough drugs and medical devices for the treatment of androgen mediated conditions. Applied Biology's R&D pipeline includes a topically applied prophylactic treatment for chemotherapy induced alopecia; a novel diagnostic device that can aid dermatologists in identifying non-responders to topical minoxidil; an adjuvant therapy for non-responders to topical minoxidil; and a novel therapy for female pattern hair loss.
